Mr. Steve Levetan
Senior Vice President
Pull-A-Part Used Auto Parts
4473 Tilly Mill Road
Atlanta, Georgia 30360

Dear Mr. Levetan:

I write to thank you for taking the time to personally host my recent tour of Pull-A-Part South, here in Atlanta. It was a very informative and enjoyable visit, and I really appreciate you and your team for making it so.

Pull-A-Part's innovative approaches to recycling and reusing vehicle parts are very impressive, and your efforts to conduct operations with considerable environmental sensitivity are exemplary. As evidenced by the major performance awards Pull-A-Part has received from various organizations, including EPA, over the past two years, it is quite clear that your strategies are now being recognized widely, making Pull-A-Part a significant emerging leader in this business. You are to be highly congratulated.

EPA will continue to collaborate with Pull-A-Part as we, together, advance environmentally sound business practices in the waste minimization, recycling, reclamation, and reuse arenas. Please do not hesitate to contact me at your convenience to further discuss your growing operations throughout the Southeast.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. I. Palmer, Jr.", with a large, stylized flourish at the end.

J. I. Palmer, Jr.
Regional Administrator
