Dear Steve:

I want to thank you for hosting the Millionth Switch event at your facility on February 29, 2008. Your exemplary automotive recycling facility provided an interesting and appropriate setting, because automotive recyclers like you are on the front line to collect mercury automobile switches under the National Vehicle Mercury Switch Recovery Program (NVMSRP). I would like to extend my appreciation for your effort and the efforts of your staff to assure that the event ran smoothly and the guests' needs were accommodated. Your investment in making this a notable event for the NVMSRP was handsomely rewarded, as evidenced by the extensive press coverage it received.

We look forward to working with you in the days ahead to achieve our goals under the NVMSRP.

Sincerely,
