Training Division

Steve Levetan
Senior Vice President
Pull-A-Part
4473 Tilly Mill Road
Atlanta, GA 30360

Mr. Levetan,

My department would like to thank you and your company for providing our firefighters with a wonderful training opportunity. Our recent training was the first scheduled in-service extrication training in many years. The vehicles provided by your North Tryon location allowed firefighters to perform extrication simulations. The knowledge gained from this training will allow firefighters to save civilian lives as well as prevent personal injury.

The firefighters now have a better understanding of vehicle safety devices, operational parameters of their rescue tools, and incident priorities. I have actually seen improvements on true rescue scenes. This could not have happened without the opportunity your company provided.

In closing, I would also like to thank Ron Thomas at your North Tryon location. He was extremely cooperative and provided us plenty of vehicles for our training.

Thanks again!

Captain W.C. Griffin
