Environmental group tours company

LAWRENCEVILLE — Members of Keep America Beautiful toured Pull-A-Part's DeKalb facility to observe some of the company's environmental processes, which recently earned first place recognition from the state's affiliate chapter, Keep Georgia Beautiful.

Pull-A-Part, an automobile parts retailer, received first place in the 2006 Keep Georgia Beautiful award category for Waste Reduction and Recycling. The tour allowed the directors, from various counties across Georgia, to witness the company's sustainable business practices first-hand.

Gwinnett Gab appears in the Thursday and Sunday editions of the Gwinnett Daily Post.
