## Used Parts Dealer Earns Statewide Award

[Back to top](#)

Pull-A-Part, the used auto parts dealer that currently is building its first Memphis location, recently won the Tennessee Chamber of Commerce & Industry Award for outstanding environmental accomplishments at the annual Tennessee Chamber Environmental Conference.

Pull-A-Part received the award for its solid waste management, according to the company, as well as for its significant contributions to air and water quality and general pursuit of environmental excellence.

The company, which processes more than 2,000 old cars in Tennessee each month and redistributes the parts to customers, is a third-generation and family-owned auto recycling business.

To read more about Pull-A-Part's entry into the Memphis market, see our June 12 edition at
